EQUIPPING THE JOURNEY

RESOURCES FOR MISSION AND MINISTRY IN THE LOCAL CHURCH AND BEYOND

September 2018
INTRODUCTION

In early 2018, at the request of the General Minister and President, the staff of the UCC’s National Setting launched an asset mapping exercise in order to gain a comprehensive picture of how the National Ministries currently serve and support our primary UCC covenant partner settings:

1) Local Churches (including all Authorized Ministers in covenant with local churches) and
2) Conferences, Associations, and other UCC National Entities.

The asset mapping exercise begun by the National Setting includes:

- Establishing a baseline of existing resources (assets) by conducting an internal assessment of the resources currently available at the UCC’s National Office to assist and support the operations, ministries, and services of Local Churches, Conferences, Associations, and other UCC entities.
- Verifying the accuracy of the internal assessment with our primary UCC covenant partner settings by inviting feedback from those audiences to this report.
- Utilizing feedback from this report to determine what, of our current offerings, is most helpful; and, what does not yet exist but would be extremely helpful to our primary UCC covenant partner settings. Responses to these questions will inform resource allocation as we move into the future.
- Transitioning this catalogue of UCC resources to an available, user-friendly, searchable, digital platform for use by UCC covenant partner settings and the general public.

In undertaking this project, staff responded to these principle questions:

1) What resources/materials does your team have available specifically for local churches? Specifically for Conferences and Associations? Specifically for other UCC audiences?
2) What is the quantitative and qualitative impact that these resources/materials have had for these audiences?
3) What programs/initiatives does your team have available specifically for these audiences? What is the purpose of the program/initiative, and in what format can it be shared?
4) What is the quantitative and qualitative impact that these programs/initiatives have had for our audiences?

The report which follows represents a preliminary summary catalogue of these findings.

MISSIONINSITE (MI)
A demographic program that can help congregations and ministries know their neighborhood and mission field; it is available to conferences through a national license held by CARD. Used by Conferences for local church consultations around search and call, mission planning, and other church matters. Each local church that completes a Local Church Profile for the search and call process is required to have a MissionInsite report as part of its self-reflection on community context. Allows a more intentional focus on one's ministry beyond the church building, but also a discernment tool for strategic planning for church leaders.

Website: Information page: http://www.ucc.org/missioninsite

STATISTICS AND REPORTS (VARIOUS)
Reports on various aspects of the life of the UCC, primarily focused on local churches and ministers and based on the research agenda set by CARD in consultation with Conferences. Relevant and applicable reports to issues churches, Associations, and Conferences are facing. Used as knowledge base and discussion items for church council strategic planning, Conference educational gatherings, and denominational gatherings like AM21 and General Synod.

Website: www.ucc.org/research_statistics-and-reports

UCC MINISTERIAL CHANGES AND DEATHS
A monthly listing of ministerial changes reported in the Data Hub for new positions/calls entered into the system. Similar to a "Community Updates" page for a small town newspaper, keeping people "in the know" on who is doing what and where.

Website: http://www.ucc.org/changes_and_deaths

The UCC Yearbook is the historical record of the denomination for any given year. A CALL TO ACTION FOR RACIAL JUSTICE
“What does the Lord require of you but to do Justice” Micah 6:8a
God is calling us to actively engage in the work of racial justice by eradicating racism, staying current, and collectively strategizing to inform our congregations, community organizations, and concerned citizens when racism impacts all lives. Provides websites that report racist abuses in our nation, your local church, and communities.

BIBLICAL AND THEOLOGICAL FOUNDATION FOR RACIAL JUSTICE
Provides the UCC’s theological foundation for Racial Justice. The call to be a multiracial and multicultural church is an acknowledgement that racial justice is the inclusiveness of all humans and never excludes anyone based on skin color, culture or ethnic origin. The UCC stands in solidarity with the creation narrative in Genesis 1:26-27, which clearly outlines what matters to God—all of humankind and a just world for all. God created humankind in God’s image and likeness, women and men are image bearers, sharing equal status as human beings. God did not create race, racism, superior groups of humans, and hierarchical and hegemonic social structures. God does not sanction human suffering including America’s involvement in supporting racist policies and practices.

BOYCOTT WENDY’S
Farm workers are among the most abused and exploited workers in the United States. They labor long hours under difficult conditions for very low pay, and too often suffer sexual harassment, racial discrimination, and even slavery. Every worker deserves to be treated with dignity and be paid a living wage. But working conditions for many Florida farm workers do not meet this minimal standard. For this reason I urge Wendy’s to join the Coalition of Immokalee Workers’ Fair Food Program, as many of your competitors have done already. Until that time, we encourage you to will boycott Wendy’s.

CLEAN ENERGY DISCUSSION GUIDE
In partnership with the Sierra Club and Everyday Democracy, the UCC has launched a community discussion guide aimed at leading to action in support of clean energy. The guide is called “Clean and Affordable Energy to Create More Livable Communities for All: A Guide for Public Dialogue to Create Sustainable Action and Change.” Churches can use this discussion guide within their church or in collaboration with other organizations and faith communities seeking to cultivate common purpose and action. The discussion guide is based on a long-used “dialogue-to-action” model that has been deployed by EverydayDemocracy for several years. It uses popular education techniques that help participants ground their knowledge and conversation in their own experiences. It additionally guides participants through a process that ultimately leads to them formulating their own collective objectives and actions.

CREATION JUSTICE CHURCHES
Guides churches in discerning how to make creation justice central to their congregation's DNA. Maintains a national list of names of Creation Justice Churches. Practices implemented by local churches often shared in a Pollinator article series on best practices for churches. Captures qualitative narrative of what local churches are doing. Encourages churches in conscious theological reflection about creation care and justice, how to embody that theology in worship, how to embody creation care and justice ethic in church practices across ministries, how to expand one's circles of environmental awareness beyond the church to the broader world, and how to connect with other churches and organizations in the work of creation justice.

Website: http://www.ucc.org/creation_justice_churches

CREATION JUSTICE WEBINARS

CREATION JUSTICE: WHERE ARE YOU CALLED TO SERVE?
To assist congregations in conceptualizing how they can initiate or further develop their creation justice ministries, a resource has been developed that utilizes an popular advocacy metaphor known as the ladder of engagement. This ladder presents ten levels of increasing engagement for creation justice ministry for a congregation. It aims to support discernment over how a congregation can set goals and strategically consider how to advance their care for God’s creation.

Website: http://www.ucc.org/creation_justice_where_are_you_called_to_serve

ENDING RACIAL PROFILING
Assist local churches in advocating against and lending support to victims of racial profiling. Racial profiling is the targeting of particular individuals based on the erroneous assumption that persons of a particular race, ethnicity, national origin, or religion are more likely to engage in certain types of unlawful conduct. It is the impermissible use of personal characteristics when there is no reliable information that links a person of a particular race, ethnicity, national origin, or religion to a specific incident, scheme, or organization.

Website: http://www.ucc.org/justice_racism_racial-profiling

INVITATION TO PARTICIPATE IN RACIAL JUSTICE
The foundation of engaging in racial justice rests on the policy statements made by the General Synod of the United Church of Christ. During General Synod 23 an addendum was added to 1993 Pronouncement calling the UCC to become a Multiracial, Multicultural Church. The addendum called the UCC to also become an "Anti-Racist" denomination. In doing so, we encourage all Conferences, Associations and local churches of the UCC to adopt anti-racism mandates, including policy that encourages anti-racism programs for all UCC staff and volunteers.

LABOR SUNDAY OBSERVANCE
The Sunday of Labor Day weekend is Labor Sunday, a day to lift up workers, celebrate their contributions, and support their struggles. It is also a day to commit ourselves to improving jobs so that all workers have wages, benefits, and work hours that allow them to be self-sufficient and live lives of wholeness. There are many ways to lift up workers and our work lives during a Labor Sunday service. Justice and Witness Ministries encourages congregations to participate in Labor Sunday. Links on the Labor Sunday page will direct you to resources for worship, organizations that would welcome your involvement in struggles for justice, and sources for general information about working conditions.

**POVERTY**

Over half of all Americans will be poor at some point in their lives. Millions of people in the United States and billions around the world live their entire lives with inadequate incomes, unable to develop their God-given talents or even thrive at a minimal level. But poverty is not inevitable. In a rich world and in this incredibly rich nation, the poor do not have to be with us always. The eradication of poverty is possible. Society’s failure to recognize that poverty is at the root of many of our social concerns is just one indication of our blindness. May God open our eyes to see the suffering of God’s people and open our ears to hear God’s call to do economic justice. Our nation can eradicate poverty. The Church must be a leader in this work.

TAX REFORM
Our faith calls us to work and pray for a society where all God’s people enjoy the fullness of life that is God’s vision for each one of us. In today’s world, a just and faithful society depends upon a fair tax system. Our federal tax code has many beneficial features but it also stands in need of reform. A good tax system reflects our values. It raises sufficient revenue for society’s needs, is progressive (falling more heavily on those with higher incomes), and eliminates loopholes and other possibilities for tax avoidance.

THE REPUDIATION OF THE DOCTRINE OF DISCOVERY

The repudiation of the Doctrine of Discovery by General Synod 29 provides an invaluable teaching moment for our congregations to understand systemic and continuous impact of racism on the daily lives of indigenous peoples in the U.S.

GATHERINGS FOR ARTIST/ACTIVIST/MINISTERS AND CULTURAL WORKERS
To bridge Justice and Witness Ministries and Faith Formation in worship, liturgy, cultural work and creative advocacy. Gatherings ranging from an afternoon to 5 days, coinciding with other events such as Ecumencial Advocacy Days, the Wild Goose Festival as well as the Worship Ways Artist-Activist Gathering. To successfully bridge and integrate faith formation with justice and witness work as well as decolonize and reimagine foundational worship resources being used by the local church will require a diverse and capable circle of artists, activists and ministers able to employ intersectional, critical race and postcolonial theories while at the same time being rooted, knowledgeable and grounded in scripture and our faith tradition.

LITURGIES FOR JUSTICE AND WITNESS
To integrate the work of justice and witness with worship and community building and vice versa. Six highly contextualized, multimedia worship liturgies including the Love of Creation Worship Service for 3 Great Loves, Worship for Each Generation in support of Creation Justice Ministries, Being Human Worship Service for Sacred Conversations to End Racism, Phase I, UN Decade for People of African Descent Worship Service for Wider Church Ministries; Uprooted Worship Service and Additional Liturgical Pieces for Ecumencial Advocacy Days, and Radically Rooted Worship Service and Additional Liturgical Pieces for Sojourners Summit For Change. Integrating worship, community building and cultural work into our specific justice work builds resilience and relationships for the long road of faith and justice. Highly contextualized worship material also gives local churches another way to engage important and ongoing issues and work and find connection with the greater church by utilizing these shared resources.

Web - multimedia liturgy and worship resources distributed online.

CONGREGATIONAL AND COMMUNITY ENGAGEMENT WORKSHOPS
To equip ministers, congregations and youth in practical and creative ways in the work of community building, organizing and justice ministry. Realizing the mission and vision of the church, a just world for all, requires equipping the local church in dynamic and intersectional ways. To create a just and beautiful world for all, local churches must be equipped for community building and justice work and at the same time be sustained in it every step of the way, from beginning to engage justice work, to healing from trauma in the aftermath or ongoing assault of injustice. Faith formation, worship, liturgy and art are key.

MONEY AND MINISTRY EVENT
In November 2017, the UCC Financial Ministries (Church Building & Loan Fund, Cornerstone, Office of Philanthropy, Technology, Identity and Communication (OPTIC), and UCF) participated in the first “Money and Ministry” event.

The “Money and Ministry” event provides a conference or association an opportunity to help churches strengthen their financial foundation. The event presents the ideal forum for Financial Ministries representatives to speak directly with the individuals responsible for selecting our services. The event can be held at conference headquarters or a centrally located church. The agenda typically consists of a continental breakfast, opening remarks, lunch, and multiple workshops that run concurrently, allowing participants to attend one to three workshops. The day usually ends with a group discussion about topics discussed during the day.

PLANNED GIVING PROGRAM
UCF is responsible for the administration and marketing of planned giving services for the UCC. While UCF has always managed the investments for planned gifts, we needed to create a platform that would continue to serve individuals and engage churches to implement a sustainable planned giving program to ensure their future viability in their community and the larger UCC.

UCF worked with a vendor to develop a Microsite platform which we introduced to a select group of clients in August 2017. The Microsite is an online tool that will help churches initiate a conversation about planned giving with congregants. A church can use the Microsite platform to introduce members and the broader community to the concept and importance of planned giving, explain the various ways to make a gift and demonstrate how easy it is to make a planned gift to their church, conference or UCC. These gifts will help sustain the church for future generations. A donor can speak with the UCF Planned Giving Associate to gain a better understanding
of the various types of planned gifts, review custom gift calculations, assist with the planned giving documents and execute a planned gift.

In addition to the Microsite platform, UCF will provide clients with an array services such as webinars, legal and industry updates, best practices and sharing client success stories, all designed to strengthen each church’s financial foundation and provide for future generations.

A CALL TO ACTION FOR RACIAL JUSTICE
“What does the Lord require of you but to do Justice” Micah 6:8a
God is calling us to actively engage in the work of racial justice by eradicating racism, staying current, and collectively strategizing to inform our congregations, community organizations, and concerned citizens when racism impacts all lives. Below are websites to report racist abuses in our nation, your local church, and communities:

BIBLICAL AND THEOLOGICAL FOUNDATION FOR RACIAL JUSTICE

The call to be a multiracial and multicultural church is an acknowledgement that racial justice is the inclusiveness of all humans and never excludes anyone based on skin color, culture or ethnic origin. The United Church of Christ stands in solidarity with the creation narrative in Genesis 1:26-27, which clearly outlines what matters to God—all of humankind and a just world for all. God created humankind in God's image and likeness, women and men are image bearers, sharing equal status as human beings. God did not create race, racism, superior groups of humans, and hierarchical and hegemonic social structures. God does not sanction human suffering including America's involvement in supporting racist policies and practices.

BOYCOTT WENDY’S

Farm workers are among the most abused and exploited workers in the United States. They labor long hours under difficult conditions for very low pay, and too often suffer sexual harassment, racial discrimination, and even slavery. Every worker deserves to be treated with dignity and be paid a living wage. But working conditions for many Florida farm workers do not meet this minimal standard. For this reason I urge Wendy’s to join the Coalition of Immokalee Workers’ Fair Food Program, as many of your competitors have done already. Until that time, we encourage you to will boycott Wendy’s.

ENDING RACIAL PROFILING
Assist local churches in advocating against and lending support to victims of racial profiling. Racial profiling is the targeting of particular individuals based on the erroneous assumption that persons of a particular race, ethnicity, national origin, or religion are more likely to engage in certain types of unlawful conduct. It is the impermissible use of personal characteristics when there is no reliable information that links a person of a particular race, ethnicity, national origin, or religion to a specific incident, scheme, or organization.

INVITATION TO PARTICIPATE IN RACIAL JUSTICE
The foundation of engaging in racial justice rests on the policy statements made by the General Synod of the United Church of Christ. During General Synod 23 an addendum was added to 1993 Pronouncement calling the UCC to become a Multiracial, Multicultural Church. The addendum called the UCC to also become an "Anti-Racist" denomination. In doing so, we encourage all Conferences and Associations and local churches of the UCC to adopt anti-racism mandates, including policy that encourages anti-racism programs for all UCC staff and volunteers.

LABOR SUNDAY OBSERVANCE
The Sunday of Labor Day weekend is Labor Sunday, a day to lift up workers, celebrate their contributions, and support their struggles. It is also a day to commit ourselves to improving jobs so that all workers have wages, benefits, and work hours that allow them to be self-sufficient and live lives of wholeness. There are many ways to lift up workers and our work lives during a Labor Sunday service. Justice and Witness Ministries encourages congregations to participate in Labor Sunday. Links on the Labor Sunday page will direct you to resources for worship, organizations that would welcome your involvement in struggles for justice, and sources for general information about working conditions.

POVERTY
Over half of all Americans will be poor at some point in their lives. Millions of people in the United States and billions around the world live their entire lives with inadequate incomes, unable to develop their God-given talents or even thrive at a minimal level. But poverty is not inevitable. In a rich world and in this incredibly rich nation, the poor do not have to be with us always. The eradication of poverty is possible. Society's failure to recognize that poverty is at the root of many of our social concerns is just one indication of our blindness. May God open our eyes to see the suffering of God's people and open our ears to hear God's call to do economic justice. Our nation can eradicate poverty. The Church must be a leader in this work.

TAX REFORM
Our faith calls us to work and pray for a society where all God’s people enjoy the fullness of life that is God's vision for each one of us. In today's world, a just and faithful society depends upon a fair tax system. Our federal tax code has many beneficial features but it also stands in need of reform. A good tax system reflects our values. It raises sufficient revenue for society’s needs, is progressive (falling more heavily on those with higher incomes), and eliminates loopholes and other possibilities for tax avoidance.

COUNCIL FOR CLIMATE JUSTICE ENTRY RESPONSES
The UCC Council for Climate Justice was established with the dual purpose of raising awareness in the UCC about climate justice and bringing people together for action. The Council strives to have representation from all conferences in the UCC. It further strives to live out the mandates of the 2015 resolution that calls for the establishment of a national task force devoted to the transition from fossil fuels to renewable energy. The council convenes each month via zoom for group devotional time, program reports, and guest presentations by leaders in the field of climate justice. Decisions are made collectively through online voting between meetings. Currently, all but one conference is represented by a council that consists of 60 persons. Past actions of the Council include sponsoring nationwide climate vigils on the day of the 2017 presidential inauguration, sponsoring nationwide climate marches in 2017 and 2018, launching a campaign for a thousand sermons preached in solidarity with youth suing the federal government over climate change, and establishing partnerships with 350.org and the Environmental Voter Project.

**COMMUNITIES OF PRACTICE, ACMS**
Develops leadership and deepens capacity among ACMs who work with Search and Call and with Committees on Ministry, 40 ACMs. Note: ACMs promote/host additional CoP type sessions for hundreds of ministers within their area. Ministry is isolating and judicatory ministry seems to compound that isolation. Many ACMs have highlighted how these groups have helped make their ministry not only bearable, but they are able to thrive in new ways. Because of this grant ACMs have a peer group praying with and for them, colleagues with whom they can bounce ideas, wrestle through challenges, and celebrate joys. These groups have helped people with vocational discernment – sometimes into different judicatory roles, parish ministry, retirement. Relationships are built and strengthened across the UCC that positively impact the middle judicatory ministry of the denomination in deep ways.

Also an opportunity to raise awareness on the importance of financial vitality within the congregation. The first cohort of 30 UCC authorized ministers began their three-year personal finance journey in 2017 with no-cost financial planning and counseling through Ernst & Young Financial Planning Services® (EYFPS). Program Two of MFVI helps 100 selected UCC authorized ministers serving in parish/local church settings achieve financial vitality through provision of one-time grants of up to $1,000, with the employing congregations committing to raising a matching amount. If eligible, participants may use their grant funds and those matched by their congregation to alleviate any outstanding personal/educational debt or to set up emergency savings.
